

AltoSling

Agile-Fit Dress/ Toileting sling

The Agile-Fit is one of our most popular slings, providing excellent access for hygiene procedures including toileting. It is a well-padded sling which is available in a range of sizes, from XX Small to XXX Large.

This cleverly designed sling pattern is very easy for the carer to apply, and allows easy clothing removal. All labels are embroidered making them more resilient during washing.

Please note this is an 'active' sling and requires upper body/core muscle strength and user participation to work safely – users should be assessed first before using this sling.

The safe working load of this sling is 200kg for sizes XX Small to X Large, with the XXL and XXXL sizes having an increased capacity of 300kg.

Order Code: S1050 (No head support)
S1060 (with head support)

All available in sizes XXS to XXXL.
