

Shower Toilet Chair Range

Highly adjustable to
maximise postural support,
increase independence,
comfort and quality of life.

Welcome to Wealden Rehab

Simon Campbell
Managing Director

Over the course of many years, we have supported professionals throughout the UK with assessing and providing solutions for bathing and hygiene. Our market leading range of shower chairs has given thousands of users' comfort and support when attending to personal care; our growing portfolio of different models and accessories make it easy for you to specify a perfectly client-centred solution.

When providing a chair of this nature it's important it meets both present and future needs of the user. We accommodate a very wide spectrum of users, from children to adults and bariatrics, and consider them to be future proof, able to grow and change with smaller users as well as meet the changing needs and challenges of adults and plus size clients.

We have proven time and again that our chairs offer tangible benefits to our clients, whether in a specialist hospital department where pressure management is critical, an occupational therapist who requires a rapid solution for a specific user, or indeed a budget holder who is looking to reduce costs in their service and maximise asset recyclability.

Whatever your need, we would love the opportunity to introduce you to the range, and our specialist team of advisors are here to assist you. Training can be delivered virtually or in person. Our online videos and assessment forms are also great tools for building and adjusting your new chair.

Visit our website at www.wealdenrehab.com/raz. When you partner with Wealden Rehab, you will get a solution to be proud of – we look forward to working with you!

Comparisons

Decide what you're looking for from a shower/toilet chair and then match your requirements with the options below. Some things you may want to consider:

Price | Cost | Multi-user environments | Motorised drive and height adjustments | Postural requirements
Pressure relief requirements | Adaptable to need while using the chair | Recyclability | Reconfigurability

RAZ

The best product on the market for **recyclability and reconfigurability** for loan store needs. Enough adjustment and accessories to meet every **postural and pressure requirement**. Used as a chassis for users requiring **moulded seating** for support.

Liberty

High-quality shower chairs, for persons and care teams that require **electric height adjustment or motorised travel for independence**.

Laguna

Delivered flat packed, the Laguna is a **high-quality shower chair that won't break the bank**.

	Price	Life cost	Clinical accommodation	Adaptability
RAZ	1 star	5 stars	5 stars	5 stars
Liberty	2 stars	3 stars	4 stars	4 stars
Laguna	5 stars	3 stars	2 stars	2 stars

All models come with a lifetime guarantee against rust and corrosion.

Modular Seats – featuring IPAS adjustment

Ischial Pelvic Alignment System - Adjustment to ensure the aperture is in the correct position for the user.

Contoured for pressure reduction and pelvic stability

Soft integral-skin foam for comfort and durability

IPAS – adjustable by 50mm forwards and backwards

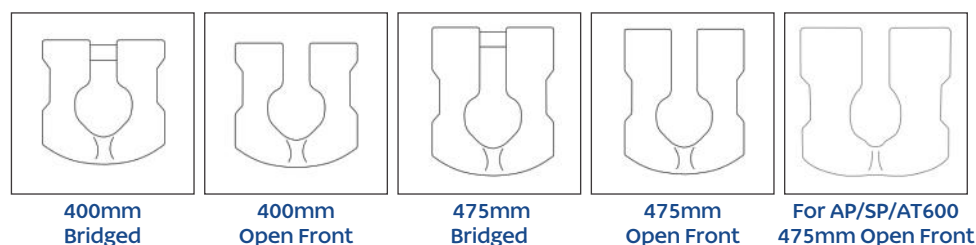

Side cut-outs for increased access

Variety of seat sizes and designs available

Seat Design

Moulded Foam Seat Designs

This injection-moulded seat has gentle contours to support the pelvis and an integral skin which is water-resistant, yet supple and comfortable.

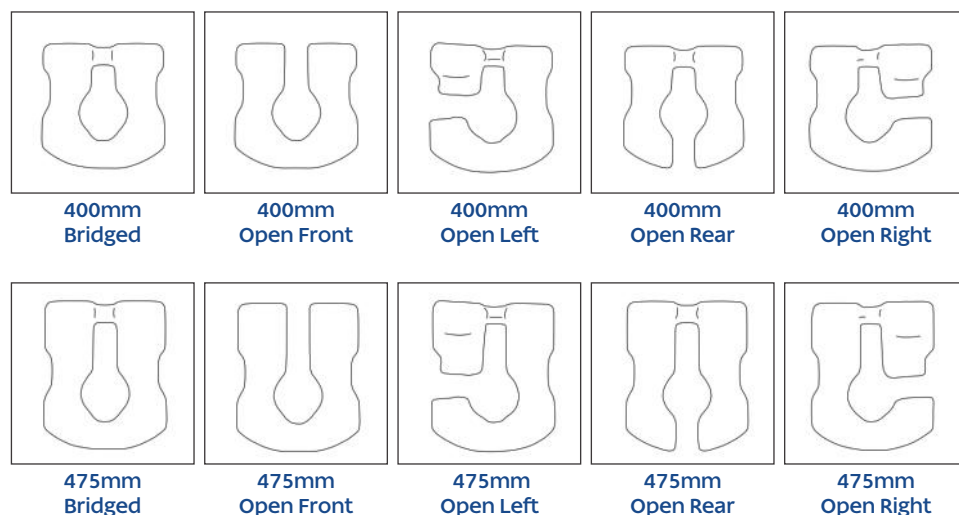

Moulded Foam Seat Construction

Visco Foam Seat Designs

These seats have a layer of memory foam for extra comfort and are hand-upholstered with a bi-elastic vinyl. This construction allows us to offer a wide variety of designs.

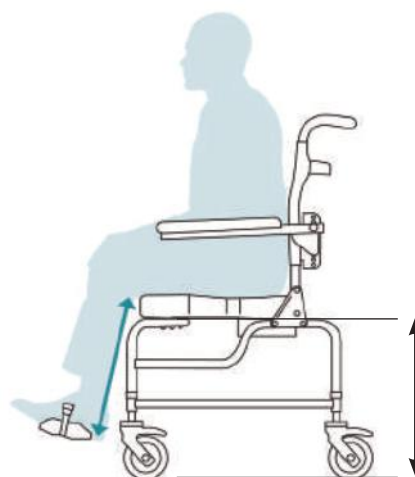

Visco Foam Seat Construction

Achieving a perfect fit over your WC

Adjusting the height of your chair for your WC

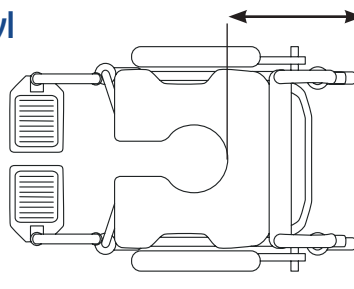

Toilet bowl height (mm)	360	380	400	420	440	460	480	500	520	540	560
AT standard seat height		530	530	560	560	580	610	640	640		
ART	500	530	530	560	560	580	610	640	640	660	685
AP/SP standard seat height		500	520	540	560	580	600				
AP600 5" castor seat height		490	510	540	570	570	600				
SP600 5" castor seat height		490	510	540	570	570	600				

Lining up your chair with the toilet bowl

Rearmost chair point to rear of seat aperture

AP = 180mm
ART = 230mm
SP = 280mm
AT = 290mm

Using an automatic WC?

Geberit toilets

All RAZ chairs are compatible with the Geberit Mera care toilet. For the Geberit 7000 and Geberit Aquaclean 8000 the RAZ ATW and RAZ ART provide the best solutions.

Closomat toilets

If tilt in space is required, the RAZ ART and RAZ ATW chairs fit well.

If no tilt is required, then the RAZ AP AUTO is the best option, with the optional large rear wheels if self-propelling version needed.

Bio-Bidet

The RAZ range of chair is not compatible with the Bio-Bidet or other wash-dry toilet attachments.

For more information, please call our customer care team.

Using a RAZ ATP with the Geberit Aquaclean 8000.

RAZ ART

The most complete shower chair available

The RAZ ART boasts a gravity rotational tilt mechanism, which means tilting the user in the chair requires minimal effort. The base design has allowed us to reduce the overall depth of the chair whilst still offering stable support right through to 40° of tilt – meaning the ART can be used even where there are space constraints.

This model is very versatile and compatible with standard and care toilets (Geberit Mera and Closomat Palma Vita) – its height adjustable frame will allow clearance of the pan, whilst the short wheelbase will work where there is pipework that reduces toilet projection.

- ✓ Powder-coated aluminium and stainless steel chassis – maximises durability and eliminates rust
- ✓ IPAS Seat System - adjust the seat depth to achieve optimum aperture positioning
- ✓ Rotational Tilt frame design
- ✓ Height adjustable
- ✓ Tension adjustable backrest
- ✓ Tilt-in-space for excellent pressure management and comfort
- ✓ Flip-up padded armrests for access
- ✓ 5" dual-locking casters

Order Code: N6291

Key features

Tension-adjustable
back upholstery

Adjustable back angle

Rotational Tilt frame

Height adjustable

Dual-locking 5"
(swivel and roll) castors

Flip-up padded arms

Ischial Pelvic Alignment
System (IPAS), provides
50mm of fore/aft or 25mm
of lateral seat adjustment

Tilt-in-space for excellent

Dimensions

Model	Max user weight – kg	Overall width	Width between handles	Height from top of seat to top of backrest vinyl	Top of seat from floor	Height of arm above seat
ART	160	570	450	500	510 -585 / 610 -685	200-260

The RAZ ART can be paired with the wide range of accessories to provide all levels of postural support and maximum pressure redistribution.

The RAZ ART frame can be adjusted to cater for either adult or paediatric use. The seat depth ranges from 11" to 21" but smaller backrest widths are available.

The rotational tilt design negates the need for gas struts, and provides a very compact frame.

RAZ AT

Attendant propelled, tilt-in-space shower chair

185kg
MAX
USER WEIGHT

The RAZ AT is a stainless steel, tilt-in-space shower chair with best-in-class postural and pressure management. The design of the frame means it is multi-adjustable, with a range of seat heights, seat depths, armrest heights and backrest angle adjustments as standard, so it can be adjusted to best suit the user and environment.

The use of IPAS (Ischial Pelvic Alignment System) allows the seat aperture to be aligned with a user's pelvis, whilst the contoured soft foam goes further in reducing pressure.

See accessories on page 24.

Order code: N0001

- ✓ Stainless steel chassis – maximises durability and eliminates rust
- ✓ Height adjustable seat – easily configured to accommodate transfers
- ✓ Ischial Pelvic Stability System (IPAS)
- ✓ Up to 185kg weight capacity
- ✓ Tension adjustable backrest – supports posture and provides lateral support
- ✓ Tilt-in-Space to 40° – excellent for pressure management and comfort
- ✓ Flip-up armrests - increased access and improved transfers
- ✓ Forward Tilt to 5° and 10° to assist with transfers.

Key features

ALSO AVAILABLE

- 400mm and 510mm widths available
- Recline module
- Self-propel wheels

Dimensions

Model	Max user weight – kg	Overall width	Width between handles	Height from top of seat to top of backrest vinyl	Top of seat from floor	Height of arm above seat
AT	185	570	400	500	560 / 580 / 610 / 640	200 – 260
ATR	185	570	400	500	560 / 580 / 610 / 640	200 – 260

The RAZ AT features a hydraulically adjustable chassis achieving up to 45° tilt. The AdjustaBack is tension adjustable to provide postural support to spinal curvatures and can offer a degree of lateral support.

Accessories

Accessories for the chairs include lateral supports, variety of different seat modules (see page 5), elevating leg rests, lateral supporting head supports and much more. The chairs can also be fitted with our range of positioning aids including pelvic straps, ankle supports and chest harnesses.

Width options

The RAZ AT is now available in the following seat widths (in addition to the standard 450mm (18") version) – 500mm, 550mm, 600mm. All models offer 185kg max user weight.

ATR

The RAZ ATR is based on the RAZ AT, but features back angle recline with hydraulic adjustment up to 25°. This enables accurate user positioning and provides extra comfort. Shown here with elevating leg rests.

RAZ Infection Control Chair

Promotes the protection and hygiene of all users

185kg
MAX
USER WEIGHT

As a new addition to our extensive shower chair range, we have the RAZ AT Infection Control chair.

Dealing with the spread of infection is no new challenge, but with the Covid-19 pandemic, it is even more important to have equipment that promotes the protection and hygiene of all users.

- ✓ Frame modified to assist with cleaning and disinfecting
- ✓ Infection control lapbelt
- ✓ Harmony rigid backrest
- ✓ IPAS Seat System - adjust the seat depth to achieve optimum aperture positioning
- ✓ Stainless steel chassis for durability
- ✓ Tilt-in-Space to 40° - excellent for pressure management and comfort
- ✓ Flip-up armrests for excellent access
- ✓ Forward tilting position (optional) to assist with transfers

See accessories on page 24.

AT	185	570	400	500	560 / 580 / 610 / 640	200 – 260

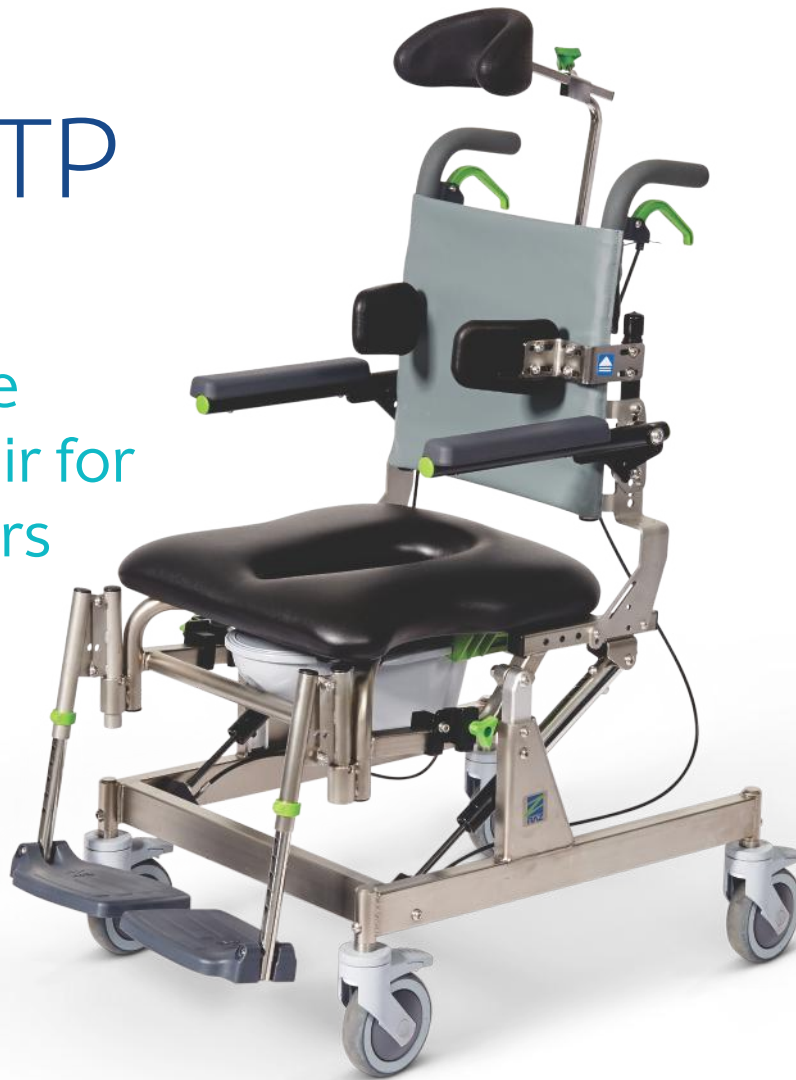

Based on the hugely popular RAZ AT - there are additional features in this chair that will assist you, whether in a hospital, hospice or care home.

This chair is adjustable with a range of seat depths and backrest angle adjustments as standard allowing you to set up the chair to suit the patient and environment.

The use of IPAS (Ischial pelvic alignment system) allows the aperture to be aligned with a user's pelvis, and the contoured soft foam on the Visco seat options go further in reducing pressure.

RAZ ATP

Compact
tilt-in-space
shower chair for
smaller users

136kg
MAX
USER WEIGHT

RAZ ATP is a revolutionary compact shower chair for all paediatric, adolescent and smaller users.

Offering the same level of support found in all our RAZ chairs, the ATP has a range of seat height, seat depth, armrest height and backrest angle adjustments as standard, which allow the chair to adjust and accommodate a growing user.

See accessories on page 24.

Order code: N0001P

- ✓ Stainless steel chassis – maximises durability and eliminates rust
- ✓ Height adjustable seat – easily configured to accommodate transfers
- ✓ Ischial Pelvic Stability System (IPAS) grows with the user over time
- ✓ Tension adjustable backrest – supports posture and provides lateral support
- ✓ Tilt-in-Space to 40° – excellent for pressure management and comfort
- ✓ Flip-up armrests - increased access and improved transfers
- ✓ Up to 136kg weight capacity

ATP	136	570	360/410/460	380/450	530 / 560 / 580 / 610 / 640	130-200

The Raz ATP features a hydraulically adjustable chassis achieving up to 45° tilt, with optional upgrade for a reclining backrest available. The AdjustaBack offers tension-adjustment in the backrest to provide postural support to spinal curvatures and can offer a significant degree of lateral support.

Accessories for the chairs include lateral supports, side access and special shape seating, elevating legrests and lateral supporting head supports. The chairs can also be fitted with our range of positioning aids such as pelvic straps, ankle supports and chest harnesses.

Soft seat and flexible backrest offer high levels of comfort for children. This can often reduce toileting time.

RAZ SP

Self-propelled shower chair

185kg
MAX
USER WEIGHT

The RAZ SP chair is multi-adjustable self-propelled shower chair, with a range of seat heights, seat depths, armrest heights and backrest angle adjustments as standard allowing movement within the frame to best suit the user and the environment.

RAZ SP provides class-leading support and pressure management and is the chair of choice for many of the centres of excellence for spinal injury and neuro-rehab across the UK. It has been designed to maximise access under the seat for personal hygiene and supports the wide range of seat modules available in the range (see page 4).

- ✓ Stainless steel chassis – maximises durability and eliminates rust
- ✓ Height adjustable seat – easily configured to accommodate transfers
- ✓ Ischial Pelvic Stability System (IPAS) optimal pelvic positioning
- ✓ Tension adjustable backrest – supports posture and provides lateral support
- ✓ Flip-up armrests – increased access and improved transfers
- ✓ Up to 185kg weight capacity
- ✓ Dual-locking castors at front

The RAZ AP can be upgraded with a self-propel conversion kit to allow flexibility with changing user requirements or recycling needs.

RAZ AT600

A heavy duty
tilt-in-space
shower chair

272kg
MAX
USER WEIGHT

The RAZ AT600 is a heavy duty tilting shower chair for bariatric or plus size users. The stainless steel frame is constructed to take users up to 272kg, and the exclusive Weight Assist Spring System (WASS) can be configured to counter-balance the users weight for near effortless tilting to 25° by an attendant, eliminating the requirement for problematic battery systems.

The RAZ AT600 is also height-adjustable by means of an adjustable chassis, allowing fine-tuning of the seat height between 570-600mm.

- ✓ Stainless steel chassis – maximises durability and eliminates rust
- ✓ Height adjustable seat – easily configured to accommodate transfers
- ✓ Ischial Pelvic Stability System (IPAS) optimal pelvic positioning
- ✓ Tension adjustable backrest – supports posture and provides lateral support
- ✓ Tilt-in-Space to 25° – excellent for pressure management and comfort
- ✓ Flip-up armrests - increased access and improved transfers
- ✓ Up to 272kg weight capacity

Order Code: N0030

Key features

RAZ ZUM

Composite folding shower chairs

160kg
MAX
USER WEIGHT

The RAZ AP/SP ZUM is our first fully folding transportable shower chair, which shares many of the features and benefits of the fixed frame chairs.

It has proven itself as a favourite for those who need support whilst on holiday or where the chair needs to be moved between locations. The design of the cross-brace allows the chair to work with most toilets, whilst giving a high level of rigidity to the frame.

- ✓ Unique folding frame
- ✓ Quick release axles
- ✓ Low profile cross brace still allows access over most standard toilets
- ✓ Lightweight aluminium frame
- ✓ Removable backrest
- ✓ Compatible with standard RAZ seats
- ✓ 160kg capacity

Order Codes: N6273

If you are looking for a chair that can be easily transported, the RAZ ZUM is for you. A simple, well-designed frame allows you to take the chair apart into manageable parts, and its easy to put back together again into a solid supportive chair, that will support up to 160kg. When taken apart no component is more than 10kg.

Custom axle receivers will allow use of users own wheelchair wheels.

An attendant propelled version of this chair is also available.

Dimensions

Model	Max user weight – kg	Overall width	Height from top of seat to top of backrest vinyl	Top of seat from floor	Height of arm above seat	Toilet height clearance	Toilet width clearance
ZUM SP	160	660	420	560	180	43.5	390
ZUM AP	160	570	420	560	180	43.5	390

Whole-life Costs

Is your equipment contract list created using real whole-life model costs?

A cost-effective decision

Considering the lifetime cost of shower chair acquisition, operation, maintenance and assessment is crucial when making a decision that is truly cost-effective for your organisation.

The cost of maintenance and replacement parts in a product's first 3 years can account for 90% of the equipment's whole-life cost. The typical maintenance cost for a RAZ can be 100% less than comparable shower chair models - meaning you make substantial savings over the equipment's lifetime.

Corrosion free components

All the metal components on the RAZ shower chair range are constructed from 316 stainless steel or aluminium to prevent rust and corrosion. Our confidence in the excellent build quality of the RAZ shower chair is reflected in our 5-year warranty as standard, which also applies to gas struts and tilt in cables on the tilt in space option.

Flexibility

Product design is such that the RAZ will accommodate users who need a 16" seat width up to a 21" seat width. Needing only two frames and two seat length options, the RAZ will meet 99% of user requirements.

The attendant and self propel options share the same frame to achieve a lean investment.

Adjustability & compatibility

RAZ chairs are designed with the biggest integral range of adjustments on any shower chair or toilet chair on the market. This means that RAZ will meet 95% of user requirements within the standard product.

Adjustments include seat height, seat depth, backrest angle, armrest height, anterior tilt, centre of gravity adjustment and a backrest which provides outstanding lateral support and immersion.

All accessories and special parts will fit a standard RAZ chair, making sure you maximise the use of stock frames and removing the need to buy a costly custom-made shower chair.

Prescriber assessment training & support

Training & workshops

Not only is the RAZ a long-term cost-effective choice for shower chair provision, but our in-depth, expert-led training ensures your team prescribe the product efficiently. We provide education and prescription workshops to ensure prescribers are competent, confident and have the right tools to prescribe the RAZ with adjustments suited to the user and the care environment.

Also available

Barella Shower Trolley

The feature-packed Barella mobile shower trolley offers exceptional usability with the ability to meet specific patient and environment needs. Barella is designed for stability, comfort and convenience and is available in adult, paediatric and bariatric models.
